

College Representatives

College representatives are visiting Bradford on a regular basis. This is a wonderful opportunity to meet a college representative in person and have your questions answered. Meetings are held in the library during normal school hours; you must get a pass from your counselor to attend. Also, it is wise to make campus visits. You wouldn't want to buy a car without driving it; the same applies to choosing a college campus. Make sure it's a good fit. Visit individual college/universities websites for a listing of their campus preview days/tours or call them directly.
